(S/NF/SG/LIMDIS) Following are the perceived highlights from each source. This tasking is in support of follow-on tasking from your office concerning [REDACTED]

SG1A

-- The target [REDACTED] is overseeing large plastic bundles of drugs bound with rope. He is thinking about the best way to get them to their final destination. His activities include the transport and concealment of these drugs. He has at least two male accomplices and can receive a large sum of money for a sizable delivery. These are hard rather than soft drugs in nature and a risky operation. The drugs may be transferred as many as three times before reaching their final destination.

- (S/NF/SG/LIMDIS) Source B:

-- The target is currently staying in one location; a holding pattern, if you will. He is becoming increasingly more concerned over the size of the cargo of this operation. My perception is that this is a very huge amount which is being transported; far more than this individual and his operatives have attempted in the past.

-- I still cannot get a lock-on to where his exact location is. He is associated with a group of islands but the large land mass previously perceived by myself (project 94-259-0, sketch enclosed) may, in fact, be a very large island rather than a continent.

-- There is an associate with him. This individual is Asian, has very straight and shiny collar-length hair and wears western-style clothes which he feels are "hip". However, these are the type of clothes worn during the late 60's thru mid 70's i.e. polyester bell bottoms and shirts with large collars. He smokes exclusively American cigarettes.

-- This second individual "feels" particularly "sleazy", as if he has either been in the business longer or he is capable of extreme violence. He seems to enjoy taunting Said "Anwar". This person is also a womanizer and is always seen with at least two or three "ladies" accompanying him.

-- I sense that the operation per se is very close to going into full swing. The vessel which will be transporting the cargo has had some sort of association with either an African country or individual but does not have an African name.

- (S/NF/SG/LIMDIS) Source C:

-- Target is of a personality who is middle-aged and is dark skinned. Target personality has dark black hair. Personality was seen in a large luxurious car sitting in the back. Target personality was wearing black. This location was in a city that was located out west. This scene was at night. Target personality seemed to be collecting "something" from someone as he was sitting in the back of a car. It seemed that the car was sitting in front of a nightclub and was located in a bad section of the city.

-- Target also was of a structure away from the city. The structure was made of stone and was on flat land. The structure was large and there was a large body of water behind the structure. The water could of been the Pacific Ocean. I felt that I was in the state of Washington.
